Letter to Sam C. Melson,

Accomac, Va.

Dear Sir: Here's something every painter and builder ought to know.

Mr. J. H. Hall, Sheffield, Pa., painted two houses, 5 years ago, lead-and-oil; took 40 gallons. Last year, he painted Devco; bought 40 gallons; had 10 left.

He is one of thousands. The knowledge is getting about pretty generally, that Devco goes further than anything else.

Have you found it out in your own experience?

How much further?

Suppose a job amounts to 10,000 square feet; how much less Devco could you buy?

Is it as easy to paint? Does it cost any more or less to put-on by the gallon than anything else? how much?

If it costs no more to put-on Devco by the gallon, it costs less by the foot, you know; for the gallon does more feet. How much less, do you find it, for wages?

Lasts, say, twice as long; that is the owner's gain; but perhaps you reckon it yours; some do. The time, when that comes-in, is when he gives-out the next job.

Who gets it?
